Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious a process, as called for in claim 1, for producing linear alkylbenzenes in two steps of alkylation in the presence of two different kind of catalysts. The closest art of record Anantaneni discloses a process of alkylation of benzene to form linear alkylbenzenes. However, Anantaneni does not disclose a linear olefinic feedstock also containing coboiling aromatics, a sequence of reactors of which the catalyst of the first reactor contains mordenite and fluoride content of less than 0.05 wt% and the one of the second reactor is silica-alumina catalyst. Similarly, the double patent rejection of claims over 6,521,804 is also withdrawn since the conflicting process does not disclose features as discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
